

BodyBilt's 1010 lab stool was designed to endure lab settings that require significant sanitization processes.

Maximum ergonomic function and comfort are now available for environments requiring both Clean Room and ESD, Electrostatic dissipative properties.

The Class 10 Clean Room chair is built to comply with class 10 Standards, or with combined class 10-CR and ESD properties.

Standard Features:

- Washable Urethane Surfaces (non-upholstered)
- 10 Series Backrest (16.5" w x 12" h)
- 10 Series Seat (18.25" w x 17" d)
- Backrest height adjustment (3" height range)
- Chrome Finish Pneumatic Height Cylinder
20.5" - 27" (height seat to floor)
- Seat height adjustment (7.5" height range)
- Chrome Finish Foot Ring
- Swivel (360° range)
- Hard Floor Casters
- Black 27" (core diameter) five-star base for stool

Optional Features:

- Extra Tall Cylinder
- Glides Instead of Casters or Braking Casters
- Cleanroom and ESD
- Electrostatic Dissipative
