

BodyBilt

High-Back Executive w/Neckroll

J & K 3500 Series

Ergonomic adjustability and comfort are the cornerstones of BodyBilt Management/Executive seating. In addition to the pressure-reducing seat contours, each model features ten standard adjustments that allow the user to control their own level of comfort. The **K-style**, or knee-tilt mechanism allows users to assume a rocking, reclined, posture for reading, interviewing, or teleconferencing. The **J-style** adjustment mechanism offers users the option of adding a backrest depth adjuster, extending the seat depth for users with longer legs.

Standard Features:

- High-Back (22.0" long x 21.5" wide)
- Upholstered Back Shell
- Backrest angle adjustment (15° range)
- Backrest height adjustment (4" range)
- Armrest height & angle adjustment
