

The BodyBilt standard mid-back, task chair models are available as medical chairs. On these models, a foot-activated, hydraulic medical base (suffix B6) is substituted for the standard base and seat height adjustment. This allows for hands-free height adjustability in surgical environments.

Standard Features:

- (18.5" long x 18.5" wide)
- Backrest angle adjustment (15° range)
- Backrest height adjustment (4" range)
- Hydraulic base w/fixed height footring and foot-activated seat height adjustment (7.0" range)
- Seat Tilt Adjustment and tension control
- Swivel (360° range)
- J-style adjustment mechanism (Seat pivots from the center of the mechanism)
- Casters for hard floor
- Lariat™ vinyl or Finesse™ upholstery (washable)
- Arms Capable Bracket (for future installation of armrests)

Optional Features:

- Air Lumbar®
- Black non-upholstered arm pads (J750-B6)
- Backrest depth adjustment (2" range)
- 6 Optional Seat Pans (#2, #4, #6, #7, #8, #9)
- ROHO
- Seat Slider
- Clean Room
- S'port Foam®
- Fully Upholstered Backrest
- Reduced Pommel Foam (#4, #7)
- S'port Ridge®
- S'port Lumbar®
- Forward Tilt Stop
- Seat Tilt Lockout
- Seat Slider
- Thoracic S'port Ridge®
- Cal 133
