

BodyBilt's absolute comfort and true ergonomics can also be found in our selection of Medical Scooters. The scooter selection consists of the J102, J104, J106, J107, & J108. Each model has the same standard features but differ in seat contouring.

Standard Features:

- Seat tilt adjustment
- Seat Height adjustment (5.5" or 7.5" range)
- Seat tilt tension control
- Swivel (360° range)
- Scooter-style mechanism (seat pivots from the center of the mechanism)
- Black 26" five-star base with hooded casters*
- Carpet casters

J107

*27" base w/hooded casters is standard w/ footring/tall cylinder combination models; 26" base w/ hooded casters is standard on all other models on this page

Optional Features:

- ROHO
- Reduced Pommel Foam

J108

J106
